

# SAVANNAH BRITISH CLASSIC CAR CLUB

Issue No. 5, 2023

Car Club members were in for a treat when they visited the National Museum of the Mighty 8th Air Force on Sept. 30. Member Ray Willingham, a volunteer there, gave us free admission and a behind-the-scenes tour, including a look at the restoration area. We got to go *inside* the B-17, something visitors aren't usually allowed to do. Very cool! Thanks, Ray! Below left: the cockpit. Below right: Casey Wenum, (No. 7), and Dave Capallo.

**Right: Ray Willingham inside the B-17.**

**Below left : Inside the restoration area, Ray explains how the Link Trainer was used to train WWII pilots, including the Tuskegee Airmen.**

**Above right: One of the stained glass windows club member and artist Jon Erickson created for the museum's Chapel of the Fallen Eagles. His work also was in evidence at Spanky's Westside, where we had lunch afterward.**

**Lower right: Group shot outside the museum.**
